## Brief History of the Monthly Catalog

The Printing Act of 1895 specified two products for the description and collocation of public documents.

- The Catalogue of the Public Documents of the [...] Congress and of All Departments of the Government of the United States (Document Catalogue) fulfilled the requirement for a "comprehensive index of public documents" to be prepared "at the close of each regular session of Congress."
- The Monthly Catalog of United States Government Publications (MoCat) met the stipulation for a "Monthly Catalogue ... which shall show the publications printed during a month, where [those publications are] obtainable, and the price thereof."

Thus, the original relationship was a current awareness listing (in the MoCat) and a permanent, authoritative, and comprehensive catalog (in the Document Catalogue).

In 1947, the cost and perennial difficulty of compiling the Document Catalogue led the Superintendent of Documents to recommend to the Joint Committee on Printing that the Catalogue be discontinued after the edition for 1940 was completed. The MoCat began, to serve in the capacity of a single source for bibliographic information, fulfilling the requirements of the 1895 act, which stand to this day in 44 USC §1710-1711.

From 1895 until 1976, the Government Printing Office (GPO) arranged and described documents according to its own standards and systems. A major revision of the appearance and functionality of the MoCat took place in July 1976. GPO catalogers began producing machine-readable cataloging records (MARC) conforming to Anglo-American Cataloging Rules (AACR), Library of Congress Subject Headings (LCSH), the Ohio College Library Center (later the Online Computer Library Center, OCLC) bibliographic standards and formats, and other applicable national level standards. Since that time, GPO has gradually expanded the emphasis of its cataloging and indexing program from the production of a single printed product to the creation and maintenance of a database of high-quality, standards-based bibliographic records. These records are used by GPO and the library community to support an expanding array of bibliographic control activities.

The bibliographic data used to produce this abridged paper edition is also used to produce a World Wide Web (WWW) edition. The Web edition links users directly from bibliographic citations to electronic publications, and assists the public to locate information in depository libraries and through GPO sales. GPO bibliographic data is also available to libraries from the Library of Congress and from a variety of commercial sources for the creation of high quality local databases and public access catalogs.

## Catalog Arrangement/Sample Entry

This catalog contains brief descriptions of U.S. Government publications arranged in Superintendent of Documents (SuDocs) classification number order and may be accessed by title keyword index (alphabetical list of truncated titles, arranged by important words selected from publications titles). These brief records are based on full bibliographic records available in

the online version of the Monthly Catalog which is cumulated from 1994, available as the Catalog of U.S. Government Publications (CGP) on the GPO Access internet site at <http://www.gpoaccess.gov/cgp/index.html>

The following sample entry is a composite designed to illustrate the major features of a brief Monthly Catalog citation.

(1) Entry No.--  
The first four digits establish the year. The last digits locate the record in the catalog.

(3) Title phrase.

(6) No. of pages.

## **Federal Depository Library Program**

---

The Federal Depository Library Program was established by Congress to provide free public access to U.S. Government publications. The program is administered by the Superintendent of Documents, U.S. Government Printing Office. Over 1,300 public, academic, State, and law libraries serve as an information link with the Federal Government by maintaining collections of Government publications. These collections, which are tailored to local needs, are open to the public. Libraries designated as regional depository libraries have the responsibility of retaining material permanently and providing inter-library loan and reference services in their regions.

You may locate the depository libraries in your area by going online to the GPO ACCESS internet site. At:

**<http://www.gpoaccess.gov/libraries.html>**

The depository libraries that have selected the Item numbers and received publications listed in this catalog may be located by searching the publications in the online Catalog of U.S. Government Publications (**CGP**) at GPO ACCESS on the internet. At:
